

Help us weed, water, and maintain the Culver City Rain Garden!

About

Nested between the Ballona Creek and residential properties, the **Culver City Rain Garden** captures rain and surface runoff, filters noxious contaminants that would otherwise flow into the Ballona Creek, and beautifies the urban landscape. Your help is needed to weed, water, and maintain the garden to give the newly planted natives time to take root and thrive.

Location

At the end of Jackson Ave behind locked gate opened for the event (see map below).
For GPS navigation, use 4306 Jackson Ave.

Parking

Anywhere along Jackson Ave

Bring

Water, sunscreen, a snack if desired, and wear closed-toed shoes. Tools and gloves provided.
