The Californication house, featured in the Showtime TV series "Californication", embodies the art of indoor-outdoor living in Southern California, and is not to be missed. It's a dream house, designed by our host, renowned SoCal-based architect David Hertz, FAIA, who is well-known for his environmentally responsible approach to building. He will lead a tour as day melts into night. David apprenticed under John Lautner and describes the house as "Bali modern meets Venice craftsman meets Schindler."

The Bay Foundation, which is honored to have host Laura Doss-Hertz as the newest member of our Board of Directors, collaborates with a range of partners to create and put into action innovative science-based projects and policies for Santa Monica Bay that clean up our waterways, create green spaces in urban areas, and restore natural habitats both on land and under water, from wetlands and dunes to kelp forests. The staff are passionate about understanding and protecting the 260 sq. mile Bay and its 400 sq. mile watershed, and all the benefits that a healthy ecosystem provides us.
